BOOK SYNOPSIS

For undergraduate Introductory Management Information Systems courses Help your students succeed in the most important course they'll take As technology continues to change the way organizations do business, knowledge of MIS is critical. This modular text shows your students how businesses use information systems to solve business problems every day. Illustrative cases, exercises, projects, and other aids ensure your students connect concepts to everyday life. Unique Guides in each chapter highlight themes in ethics, security, and other timely topics. With a new edition publishing each year, Experiencing MIS keeps your students up to date. Students get hands-on practice applying MIS concepts with MyMISLab. They'll engage in real business situations with simulations, gain skills using Sharepoint® for group projects, and more. Also available with MyMISLab™ MyMISLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. MyMISLab not included. Students, if MyMISLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyMISLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyMISLab is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.
