BOOK SYNOPSIS

Its 1950s Washington, D.C.: a world of bare-knuckled ideology and secret dossiers, dominated by personalities like Richard Nixon, Lyndon Johnson, and Joe McCarthy. Enter Timothy Laughlin, a recent college graduate and devout Catholic eager to join the crusade against Communism. An encounter with a handsome State Department official, Hawkins Fuller, leads to Tims first job and, after Fullers advances, his first love affair. As McCarthy mounts a desperate bid for power and internal investigations focus on “sexual subversives” in the government, Tim and Fuller find it ever more dangerous to navigate their double lives. Moving between the diplomatic world of Foggy Bottom and NATOs front line in Europe, *Fellow Travelers* is a searing historical novel infused with political drama, unexpected humor, and genuine heartbreak. From the Trade Paperback edition.
