BOOK SYNOPSIS

Save when you order the text and activity book together! With the new edition of this activity book--the companion to Judith Birshs bestselling text, Multisensory Teaching of Basic Language Skills--students and practitioners will get the practice they need to use multisensory teaching effectively with students who have dyslexia and other learning disabilities. Ideal for both pre-service teacher education courses and in-service professional development, the activity book aligns with the third edition of the Multisensory Teaching textbook, so readers can easily use them in tandem. Students and professionals will get more than 100 easy-to-use activities that cover all the areas in the text, including oral language multisensory teaching research phonological awareness letter recognition syllable division spelling decoding fluency comprehension composition mathematics Users will also find answer keys, forms to help them with lesson planning, and other practical activities and handouts they can use with their own students. With this must-have activity book, educators will increase their knowledge of language structure and patterns, hone their instruction skills, and improve students academic outcomes.
